

CASE STUDY

SIMPLY BETTER[®] HD

Facility Cleaning

DOBER

CONDITION

A manufacturing facility was embarking on a big site wide cleaning project to accommodate growth initiatives. Some areas of the facility had been neglected and were ready for a face lift. First though, these areas needed a good cleaning, and the site was looking for a safe multi-purpose cleaner they could use on areas such as floors, walls, scales, equipment and other hard surfaces.

SOLUTION

Dober's Simply Better[®] HD is a robustly formulated multi-purpose cleaning agent ideally suited for use in the entire facility. The aqueous-based cleaning agent allows for safe cleaning of processing equipment & surfaces found in pharmaceutical, nutraceutical, personal care, cannabis, and industrial facilities and is an alternative to solvents. Simply Better[®] HD effectively cleans floors & walls, doors, scales, bins & totes, buckets & pails, work surfaces, work tools, mixing vessels, cabinets and more. It is easy to use, safe to handle and compatible with most hard surfaces.

RESULTS

Pride in Place: The facility was buzzing with how clean and "new" the surfaces and areas cleaned with **Simply Better[®] HD** looked now. The operators were so happy with how easily Simply Better HD cleaned their facility. There was a renewed feeling of pride in how their workspace looked, and with how easily the surfaces came clean with this multi-purpose cleaner, the operators have incorporated it into their every day cleaning processes.

QUICK FACTS

- Water-based multi-purpose cleaner
- Easy to use
- Great for facility cleaning of dirt, dust, grime, oily, greasy, waxy, particulate and everyday residues
- NSF Approved
